– Onex Reports First-Quarter 2015 Results –

Toronto, May 15, 2015 – Onex Corporation ("Onex") (TSX: OCX) today announced its consolidated financial results for the first quarter ended March 31, 2015 and an update on matters following quarter-end.

Highlights

- During the first quarter of 2015, approximately \$1.5 billion of combined equity was invested in two acquisitions, of which \$478 million was Onex' share.
 - SIG Combibloc Group was acquired for a total equity investment of \$1.2 billion.
 - Survitec Group was acquired for a total equity investment of \$322 million.
- In the first four months of 2015, Onex Credit's AUM grew by 15% to \$5.8 billion including the eighth collateralized loan obligation ("CLO") of \$764 million, of which \$54 million of equity was from Onex.
- In the first four months of 2015, more than 1.1 million of Subordinate Voting Shares ("SVS") were repurchased under Onex' Normal Course Issuer Bids for a total cost of \$66 million (C\$82 million), or an average cost per share of C\$71.82.
- In May, the quarterly dividend was increased by 25% to C\$0.0625 per share. This follows previous increases in the dividend rate in 2013 and 2014.

Recent Performance

"We've had a great start to 2015 with two acquisitions closed and a new CLO offering at Onex Credit," said Gerry Schwartz, Chairman and Chief Executive Officer of Onex. "Nonetheless, finding larger private equity investments remains challenging as corporate disposition activity continues to be slow."

Onex remains in an excellent position to capitalize on investment opportunities. In addition to our substantial cash balance, we have approximately \$3.6 billion of uncalled committed capital available from our limited partners.

Onex management continues to share in the risks and rewards of our businesses through the team's significant investment in everything we buy. At March 31, 2015, the team had an investment of \$2.2 billion in underlying private equity operating businesses, credit funds and Onex shares.

Creating Value for Shareholders

Onex has two long-term goals. The first is to grow our capital per share by 15% per year. For the twelve months ended March 31, 2015, Onex' capital per share grew by 4% to \$52.82 (C\$66.91). While the value of Onex Partners' and ONCAP's operating businesses, including realizations and distributions, increased by 13% in the last twelve months, our significant cash balance muted the overall growth in Onex' capital. Over the last five years, Onex' capital per share has grown at a 12% compounded annual growth rate.

The second goal is to grow our fee-generating assets by 10% per year. For the twelve months ended March 31, 2015, Onex' fee-generating assets decreased by 1% to \$13.6 billion due to significant realizations in the second half of 2014, which were substantially offset by the Onex Partners IV fundraise and the completion of two CLOs by Onex Credit. Over the last five years, Onex' fee-generating assets have grown at a compounded annual growth rate of 12%.

As we reach our goals over the long term, we believe Onex' shares will reflect both the growth in the value of our investments and the growing contribution from managing investments for our limited partners and other investors. At March 31, 2015, Onex' SVS closed at C\$73.55, which represents a 9% quarterly increase and a 20% increase over the last twelve months. This compares to the S&P/TSX Composite, which increased 2% and 4%, respectively, over the same periods.

As a substantial portion of Onex' investments are in U.S. dollars, Onex' Canadian dollar share price will also be impacted by the change in the exchange rate between these two currencies. The U.S. dollar strengthened by 9% and 15% versus the Canadian dollar during the three and twelve months ended March 31, 2015, respectively. During the first quarter of 2015, Onex' SVS were largely unchanged in U.S. dollars and increased 4% over the last twelve months. This compares to the S&P 500, which was essentially flat in the quarter and up 10% over the last twelve months.

Onex paid a first-quarter dividend of C\$0.05 per SVS on April 30, 2015 to shareholders of record on April 10, 2015.

Consolidated Results

Onex' quarterly and full-year consolidated financial results do not follow any specific trends due to acquisitions and dispositions of businesses, changes in the value of its publicly traded and privately held operating companies and varying business cycles at its operating companies.

On a consolidated basis for the first quarter, revenues increased 5% to \$4.8 billion as compared to the same period of the prior year. The increase in revenues was largely due to the inclusion of revenues from York Risk Services Group, SIG Combibloc Group and Survitec Group. In the first quarter of 2015, Onex reported a consolidated net loss of \$84 million compared to net earnings of \$99 million in the same quarter of 2014. This decrease in net earnings was primarily due to a lower increase in the fair value of investments recorded at fair value and a decrease in earnings from discontinued operations.

Attached are the Unaudited Interim Consolidated Balance Sheets, Statements of Earnings, Statements of Cash Flows and information by industry segment for quarters ended

March 31, 2015 and 2014 as prepared under International Financial Reporting Standards.
