- The management and advisory fees include those earned in the Onex Partners and ONCAP private equity funds and Onex' retained portion of the management and advisory fees earned from operating companies. No fees are included in respect of Onex capital invested in or committed to Onex Partners and ONCAP private equity funds.
- Since the beginning of 2014, management fees for Onex Partners III were based on 1% of invested capital. Onex began to receive management fees for Onex Partners IV in August 2014, which were based on 1.7% of committed capital. Since August 2016, management fees for ONCAP III were based on 1.5% of net funded commitments. Onex began to receive management fees for ONCAP IV in November 2016, which were based on 2% of committed capital by investors other than Onex and management of Onex and ONCAP. Run-rate private equity management fees are \$148 million, which includes \$46 million of run-rate management and advisory fees that would be earned on Onex capital.
- The management and advisory fees from Onex capital is a pro forma adjustment and represents the additional net fees that would be earned on Onex capital if that capital was subject to the same management and advisory fees as other investors in the Onex Partners and ONCAP private equity funds.
- Private equity carried interest is reported on a cash received basis. Credit carried interest and performance fees are accrued in the fourth quarter each year, since they are typically received shortly after the end of the calendar year.
- The carried interest from Onex capital is a pro forma adjustment and represents 40% of the additional carried interest that would have been received on Onex capital if that capital was subject to the same carried interest provisions as other investors in the Onex Partners and ONCAP private equity funds.
- The adjustment to variable compensation is a pro forma adjustment and reflects the estimated reduction in Private Equity variable compensation that would occur if Onex capital was subject to the same carried interest provisions as other investors. In this scenario, the Onex management team would be allocated 60% of the pro forma carried interest on Onex capital instead of participating in Onex investments through the Management Investment Plan. The adjustment to variable compensation is the excess of 60% of the pro forma carried interest from Onex capital over actual payments under the Management Investment Plan.
- Expenses include those of the Onex corporate office and Onex Real Estate Partners. This schedule excludes stock-based compensation and amounts paid to Onex and ONCAP management under the Management Investment Plan and carried interest in connection with Onex capital.
- Credit management and advisory fees and carried interest include \$4 million paid by Onex in respect of its investment in Onex Credit Funds (year ended December 31, 2016 - \$5 million and December 31, 2015 - \$3 million). Run-rate credit management fees at September 30, 2017 are \$45 million.

Onex receives management fees on limited partner capital through its Onex Partners and ONCAP Funds. During the initial fee period, Onex receives a management fee based on limited partners' committed capital to each fund. Following the termination of the initial fee period, Onex becomes entitled to a management fee based on limited partners' invested capital. As realizations occur in these funds, the management fees calculated based on invested limited partner capital will decline. In November 2016, ONCAP completed fundraising for ONCAP IV and Onex is entitled to management fees based on 2% of limited partners' committed capital. In August 2016, the commitment period of ONCAP III ended and Onex' entitlement to management fees changed from 2% of limited partners' committed capital to 1.5% of limited partners' invested capital. ONCAP run-rate fees presented in U.S. dollars based on the September 30, 2017 exchange rate of 1.2480.

Q3 2017 Cash & Near Cash Balance

Potential Cash Outlays

(1) Assumes that 90% of Onex' \$2 billion commitment to OPV is ultimately called for investment.

(2) Represents a three-year projected spend on dividends and buybacks based on the average annual spend in the last five years.

(3) Balance is based on uncalled committed capital at September 30, 2017, adjusted for the subsequent sell-down of Onex' secondary purchase in OPIV. This balance may not be fully funded due to expected future management fees and expenses which will reduce the overall uncalled committed capital in respective funds.

Non-GAAP Measures

The Company reports its financial results in accordance with International Financial Reporting Standards (“IFRS”). To supplement our consolidated financial statements reported on an IFRS basis, we provide the following non-GAAP financial measure: Net contribution from Onex’ asset management business. The Schedule of Fees & Expenses and the Pro Forma Schedule of Fees and Expenses detail the Company’s fees, carried interest and expenses associated with Onex’ asset management business, a component of the other reportable segment. The Pro Forma Schedule of Fees and Expenses is adjusted for fees structure generated on Onex’ private equity capital assuming this capital was subject to the same fee and carried interest as other investors in the Onex Partners and ONCAP private equity funds. The presentation of these schedules are non-GAAP financial measures. These schedules may be used by investors to assess the value of Onex’ asset management business. The presentation of the Onex asset management business in this manner does not have a standardized meaning prescribed under IFRS and is therefore unlikely to be comparable to similar measures presented by other companies.

Onex’ unaudited interim consolidated financial statements prepared in accordance with IFRS for the nine months ended September 30, 2017 are available on Onex’ website, www.onex.com, and on the Canadian System for Electronic Document Analysis and Retrieval (“SEDAR”) at www.sedar.com. Reconciliations for the preceding non-GAAP financial measures to information contained in the unaudited interim consolidated financial statements have not been presented as it is impractical.
